REPORT OF TRUSTEES OF GEORGE H. STOWELL FREE LIBRARY

To the Citizens of Cornish:

The continued decrease in book circulation and increase of magazine circulation readily shows how busy our citizens are. However, the schools are using more books and magazines than ever. Cornish Center School again leads, with a total of 114 books borrowed and South Cornish a close second with 104. -

The exhibit of school work was very fine this year and beside the adult visitors thirty-four children came to the library during the display. Book Week in November found a fitting display of posters and books.

Miss Pratt, of the State Library staff, with the assistance of Mrs. Dean worked several days cataloging our literature collection. More of this work needs to be done and we hope she will be able to help us again soon.

We are quite pleased with the new book cases in the reading room as we have needed them for some time. They were made exactly like the others. Added drop lights between the cases have been promised as soon as material and time are available to the electrician.

Our janitor resigned in December, due to illness, and so far we have not been able to find another to relieve the librarian of that added task.

Following are circulation statistics:

Total visitors at library	1,244
Books loaned at library	1,961
Books loaned to schools	466
Books loaned to South Cornish Community	153
Magazines loaned at library	632
Magazines loaned to schools	39
Books loaned to library by the Bookmobile	98

We wish to thank Mrs. Leon Bailey for the display of old papers and Godey's Lady's Book loaned to the library and Mrs. Morse for the attractive display of slippers. We also thank the following for gifts: Mrs. Robert Barrett, Mrs. Bowen, Mrs. Crane, and the estate of Mrs. A. St. Gaudens.

Respectfully submitted,

GRACE G. WELD,
ABBIE W. WHITE,
SELMA U. LOVEJOY,

Trustees.

SUPERINTENDENT'S REPORT

To the Cornish School Board:

I herewith submit my annual report for the eleventh year of your Superintendent of Schools.

This year when it seemed almost impossible to find teachers for the rural schools we were fortunate to hold the services of five able, experienced teachers, Mrs. Jane Dahms at the River School, Mrs. Eva Bernard at the Tracy School, Mrs. Marjorie Kidder at the South School, Mrs. Winifred Barton at the City School and Mrs. Charles Sullivan at the Flat School. The Center School is being taught this year by Mrs. Marion Stone, an experienced teacher who has substituted in our schools for a few years.

The children are doing good work in each of the schools, the instruction is good and the order is good for rural schools. The children of Cornish are fortunate to have regular teachers who have had years of successful experience.

The teacher situation is really quite serious. While wages have been raised they do not meet the increases in taxes and the increases in the costs of living. It is right that everyone should carry a part of the hardships of these times, but it is well to consider the difficulties of finding new teachers. There are teachers who will accept single grade positions of not more than twenty pupils, near railroad stations, at high salaries, but teachers who really love to teach and are willing to work in the rural schools as their part of help in these troubled days are hard to find.

It is generally thought that the State pays the expenses of the elementary schools over and above five mills on the equalization valuation of the District. That was the intention of the law, but during the last few years it does not work out just that way. The State pays none of the costs for educating the high school pupils. She will not pay any of the costs of the elementary education that she has not approved, and since the legislature has cut the appropriations on schools so small, the approvals have been cut on items really needed in the schools of today. The State approved only \$5 per school for lights, and has no funds for any emergencies such as the transportation of new pupils or the opening of a new school in the middle of the year.

It would be a great help to equalize the cost of education in this

state if a law was passed providing up to \$1,500 for each district to help maintain high schools or to pay tuitions and other expenses of high school pupils.

It is costing us more to run the schools this year than it has in the past and I fear it will cost even more next year. The greatest percent of increase has been in fuel although supplies have increased nearly thirty per cent, repairs nearly forty per cent and salaries ten per cent.

I believe a Parent-Teachers Association would be a good thing in Cornish. Parents should visit the schools, counsel with the teachers and encourage the children to take greater interest in the schools and in their own futures. Too often we hear remarks made about the schools by people who have not visited them and base their judgement wholly upon incidents reported by pupils or what is seen or heard when going by the schools. In any home there are instances that occur which might give the wrong impression if known by the public. It is sometimes hard to manage one or two children in a home; it is harder to have everything in good order all of the time with twenty-five to thirty children. Teachers often blame the home for failures when they have not visited that home and know nothing about it. Difficulties started in the school are often brought into the home, and it is also true that difficulties in the home or between homes are brought into the schools. If the teachers and parents could get together and talk over frankly their troubles, I believe they would understand the problems.

I wish to thank the teachers, the members of the Cornish School Board, the children and the citizens for their patience for this year.

Respectfully submitted,

WALTER L. MASON,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

1943 - 1944

During May and December a Western Electric Audiometer, loaned by the State Board of Education, was used to check pupils' hearing scientifically. April 28, through efforts of parents and teacher at City School a dental clinic was held in the home of a neighbor. Twenty-one pupils were treated by Dr. Irving Crandall of Claremont. Mrs. Dustin and Mrs. Cunningham assisted at the clinic with clerical

work. There is enormous need of dental clinics in all Cornish schools. Parents and teachers who manifest interest in preventive and corrective dentistry will help to bring about permanent school dental clinics. Please communicate with your School Board if you are interested.

Below is a summary of defects found at the time of health inspection this year.

		Corrected	Treated
Defective hearing	13		4
Defective vision	5	4	
Faulty nutrition	9		9
Skin infection	4	4	1
Enlarged tonsils	9	5	
Poor posture	9		9
Defective speech	2		
Defective teeth	80	21	
Pediculosis	4	4	

During November and December there were severe epidemics of colds and grippe. Parents have been very cooperative in attempting to check the spread of communicable diseases in the home and among the school children. Thanks to the people of Cornish, especially the parents, teachers and town officials for their interest and help in the school health program.

Respectfully submitted,

ZEPHYRINE L. HASHAM, R. N.

THE DARTMOUTH-LAKE SUNAPEE REGION

The Legislature of 1937 authorized the establishment of six Regions, each comprising a group of towns suggested by the State Planning and Development Commission. The Dartmouth-Lake Sunapee Region comprises this town and 37 others in this section of the state. The Region is incorporated as a non-profit corporation and its affairs are supervised by a group of officers chosen annually. The Region employs a full time secretary who is *paid by the state* (not by the towns). Thus your Region is a set-up established by law and the matter of whether or not it has sufficient financial support to render real service to your community rests with the voters of the towns. During its existence the Dartmouth-Lake Sunapee Region can point to the following accomplishments. Through the publicity it has issued it has brought visitors to every town, some have established summer homes and others have become permanent residents. It has been instrumental in bringing industries to several towns. It has inaugurated plans that have saved historic landmarks. It has sponsored paying summer attractions. It has been active in bringing about a survey of our mineral resources that has resulted in revenue to many towns and has conducted studies of new agricultural products.

By an appropriation not exceeding 1/100 of 1% of the assessed valuation the Region now asks the support of your town in continuing the program that has brought about the aforementioned results and to institute the following three projects which if carried through

must result in added income to each of the 38 towns of the Region. (1) A research of the possibilities of establishing industries that will use as raw materials, minerals within our area and make a study of the feasibility of the production, processing and sale of several agricultural products that in the past have received but little attention. (2) To cooperate with each of the towns in preparing descriptive pamphlets showing the attractions, natural advantages and resources of the community with the idea of eventually incorporating such material into a book descriptive of the whole Region. (3) To establish a system of Recreation Trails following back highways and little used roads leading to scenic areas and desirable locations in each of the 38 towns in the Region. As it is not deemed proper to devote more space in your Town Report to this subject, details have been omitted, however, letters of inquiry regarding any matter here mentioned will be welcome and given careful reply. Address, Dartmouth-Lake Sunapee Region, New London, N. H.

CARD OF THANKS

In behalf of all Cornish boys who are in the service of their country the committee in charge of the Christmas boxes for our service men wish to thank each and every citizen for their generous contributions which made possible this bit of cheer.

The collection for this year amounted to \$219.29, which was well over the goal of \$200 which we set.

Seventy-eight packages were sent, 23 of them going overseas. Each package contained 1 lb. of assorted, salted nuts, 1 pkg. razor blades, 5 pkgs. of candy, 1 pkg. gum and 2 bars of soap. Materials and postage amounted to \$160.21, leaving a balance of \$59.08. From 1942 we still carried a balance of \$8.55, making our total reserve balance to date

of \$67.63. This will be used during the year to give each boy, as he leaves for service, a box similar to the Christmas boxes.

Many letters have been received by parents of boys to whom boxes were sent, and also by the committee, asking that we thank the people of Cornish for their thoughtfulness and generosity. It has meant a great deal to the boys to know that the people back home remember them.

Again in their behalf the committee thanks the people of Cornish. We also wish to thank them for the enthusiastic cooperation displayed.

Sincerely,

Mrs. Olive E. Cunningham,

Mrs. Clara Bayliss,

Mrs. Abbie White,

Committee.
